Excellent Paper.

A sample copy of "The White Ribbon," a neat little paper published by the W. C. T. U., has been received at this office. It is chock full of choice reading matter of great interest to lovers of the temperance cause. The subscription price is small and all temperance workers should have a copy.

The Knight of Pythias have secured the Shubert Concert Co., to give one of their superb entertainments at the Court House in Lancaster Saturday night. The Shuberts have a national reputation and give an entertainment worth double the price of admission. It will cost nothing extra to have a good seat reserved. Call at McRoberts Drug Store and see the board.

Suitable Timber.

There is a general desire among the Garrard democrats for Judge M. J. Hughes to announce for representative, but he hasn't said "yes" yet. There are many who think the republicans wouldn't put up a man if the judge accepts the nomination, knowing the absolute folly in trying to beat him, even with their big republican majority.—Stanford Journal.

Sentence Reduced.

Acting Governor Worthington has commuted the sentence of Mack Ferrill from life to ten years. Ferrill killed Sam'l Engleman, "Long Sam", at Stanford several years ago. This reduction, together with his "good time" will leave about two more years for Ferrill to serve. The Stanford Journal says the report that Judge Saufley and attorney Sam Owsley recommended the commutation is untrue.

Court Day.

Everybody and his dog came to town Monday, and it looked as if the day would be a good one, but it turned out to be unusually dull for a March court. There were from 350 to 400 cattle on the market, most of which changed hands privately. Yearling steers and heifers brought from \$12 to \$17, cows \$18 to \$22, a lot of butcher stuff 3c to 3 1/2c, a bunch of yearling heifers \$18. A few hogs sold at 3 1/2c. Bowen Fox bought several good mules at from \$50 to \$80. Several plug horses were sold, but they are so slow now that it is not worth while to even quote the prices.

Walden.

The friends of Eld. and Mrs. Wm. Walden deeply sympathize with them in the loss of their eighteen-months old baby, Mary Brewer. The parents had been visiting Mrs. Walden's mother, near Harrodsburg for several days, when the baby was taken ill of pneumonia. All that medical skill could do was done to relieve the little sufferer, but she expired at an early hour Thursday morning. The remains were brought to Lancaster and interred Saturday morning, services being conducted at the grave by Eld. Chas. Powell. The grief-stricken parents have much sympathy in their bereavement.

Moss-Moss.

The marriage of Miss Eudoxie Moss and Mr. Eugene Moss was solemnized at the residence of the bride's parents in this city yesterday. The bride is the daughter of Mr. W. B. Moss. She is a young lady of rare beauty and intellect. She is a graduate of Daughters College at Harrodsburg, and also at the Lexington Business College. The groom is a native of Henderson, N. C., but for some time has held a position in Lexington. Immediately after the ceremony, the couple left for Lexington, where they will reside. THE RECORD extends congratulations to the happy pair.

Sawyer's Time Reduced.

Gov. Worthington has reduced the sentence of Sawyer, who killed Bob Burnside. A strong fight has been made for Sawyer ever since he killed Burnside at Barboursville several years ago.

Handsome Work.

Architect Jas. R. Ryan has made plans of several dwellings for Lancaster people, and the work has been highly praised by all who have seen it. His drawings made for H. M. Ballou, Cable Denny, A. H. Rice and others have been much admired and the parties having it done are congratulating themselves on securing him. Mr. Ryan's son, Richard, is an artist of great skill and two cleverer gentlemen could not be found.

Not Much Talk.

"I don't hear much talk" on politics here. What's the matter?" asked a visitor of a Lancaster man Monday. "Its because nearly everybody has gone to work," replied the citizen, "and they have no time to talk. Of course there are a few fellows talking, who have no other occupation, but most of our people have found that bread and meat cannot be earned by sitting on a goods box and talking politics."

They Like Him.

The many compliments we have heard passed upon Hon. R. C. Warren, convinces us further that he has a strong hold on the Garrard county people's friendship and they are for him for anything he wants. During the term of court he has just held here lawyers, jurors and litigants alike were loud in their praise of his fair, prompt and quick decisions on questions presented. We have never known a judge to give better satisfaction than has Judge Warren.

Speaking Monday.

Hon. C. C. McChord, candidate for democratic nomination for Railroad Commissioner, addressed a big crowd at the Court House Monday, and, we learn, added many new friends to his already long list in Garrard. Mr. McChord honored THE RECORD office with a call and we found him to be a gentleman well versed on questions of the day and very confident of his nomination. He has much faith in building of the Southern road from Burgin to Middlesboro and said the plan was quite plausible.

To the North.

The Queen and Crescent Route has inaugurated a service of observation cars on the famous Blue Grass Vestibule between Cincinnati and Lexington. Free Parlor cars and Queen and Crescent Standard Vestibule day coaches. 4 trains daily to Cincinnati with close connection with all trains north.

Queen and Crescent trains are without a peer in the South. 17 miles shortest line, unequalled train service. W. C. Rinearson, General Passenger Agent.

Will Name a Date.

Secretary Farrar, of the Commercial Club has received a letter from Mr. Spencer, president of the Southern, saying he would be absent from New York for several days, but would write him within the next three weeks and name a date to receive the committee from here and other towns along the proposed route. The committee will be composed of business men from each county, one's who can talk business and lay the matter before the officials in its true light. The Garrard county club is meeting with much encouragement, but, as was expected, a few will kick on the road.

Convention Call.

Pursuant to a call of the Democratic State Central Committee, a convention will be held at each voting precinct in Garrard county, on Saturday, April 1, 1899, at 2 o'clock, p. m., to elect delegates to attend the County Convention to be held in Lancaster, on the 3rd day of April 1899. Each precinct shall be entitled to one delegate for each two hundred votes and fraction thereof over one hundred votes cast for democratic electors for President at the November election in 1896.

This call is for counties in 2nd Railroad Commissioners District, and the delegates elected at the county convention are to cast the vote of the county at the convention to be held in Frankfort, April 6, 1899.

Geo. T. FARRIS, Chm.

LETCHER OWLSLEY, Sec'y.

Walden.

The Endowment Rank.

Mr. Joe F. Waters succeeds in adding many names to the list of members of the Endowment Rank Knights of Pythias. This insurance is safe and cheap. The K. P.'s are among the strongest orders in America and the insurance branch is managed by experienced business men. The Lancaster Rank now numbers about forty.

Crutchfield-Boulden.

The Lexington Herald of Tuesday, says Mrs. Maggie Boulden, daughter of Col. John W. Poor, of Garrard county, was married in that city to Mr. John H. Crutchfield. The bride was the widow of Hon. Chas. M. Boulden, who was one of the most prominent and popular men in Garrard county. The groom was engaged in the dry goods business in Lexington, but retired several years ago.

Trusted Servant Dead.

Lucinda Anderson, who has been cooking for Mr. and Mrs. Robt. L. Elkin for nearly ten years, died at their residence Friday. Mrs. Elkin tells us the woman was so obliging and attentive about her work that the entire family had become attached to her. The matter of securing honest, faithful servants has become a difficult task and when one is secured it is hard to have to part with them.

Ten Years Old.

Ten years ago THE RECORD made its first appearance in Lancaster. It was edited by the lamented James R. Marrs until 1895, when the present publisher took hold of the throttle with an inexperienced hand and no extra fuel in the tender to help pull the steep hill before us. During these four years we have made a long pull, a strong pull and an unrelenting pull to keep steam up, and next Saturday will reach the fourth mile post not much better off so far as "fuel" is concerned, but with a fair supply of experience and a firmer determination to yet catch even and run on schedule time. We heartily appreciate the manner in which our subscribers have stuck to us, but feel that we have fallen short in giving them value received for their kind patronage. With a big debt hanging over us, and an enormous weekly expense account, the clouds of despondency have frequently gathered, but believing, as we do, that all things come to him who hustles, we spat upon our greasy, inky hands, took fresh hold and were soon too busy to brood over kicking creditors, delinquent subscribers, etc.

We desire to thank our patrons, separately and collectively, for their kindnesses, and promise to strive more diligently in the future to merit their support by giving them a strictly home paper, full of home news and pulling at all times for the advancement of home enterprises.

Colored Recruits.

The War Department has wired Lt. W. T. Johnston, recruiting officer at Lexington, Ky., to enlist colored applicants for Cavalry and Infantry service, sending the former to Fort Grant, Arizona, and the latter to Fort Douglas, Salt Lake City. This is an excellent opportunity for young colored men to get into the regular Army. Recruit for white Infantry and Cavalry regiments are also wanted. Apply to

Cracks at Creation.

I was rolled up in a good feather-bed at the home of Mr. B. W. Gaines, on the corner of the Public Square last Friday night, and as I had, before retiring, been reading about wars and rumors of wars, was dreaming of men falling on a battle-field and heard the groans of the dying, when—Bang! bang! bang! bang! bang! bang! six shots in succession with such rapidity as I never heard before, followed by other shots from six-shooters loaded to the muzzle, rang out on the midnight air, creating a bigger racket than Dewey and his host bombarding the Spanish at Manila, and I imagined every man in Garrard who had ever had a grudge against anybody had met his enemy on the Public Square and that the whole layout were fighting to a finish. "My dream is a realization!" I said to my shivering self, as I reached after my shoes to rush to the scene of the unusual conflict and help care for the wounded and dying. Just then the thought occurred to me that Lancaster is without a night policeman and I knew then the racket was being kicked up by "the boys" who were innocently practicing target shooting, with the moon for the target. About 7:30 shells were found next morning, and very truly there was a hot time in the old town. It would take very pressing business to get me to walk across the Public Square alone in Lancaster after night, as bullets have no eyes and are too weighty for me to carry very many at a time—that is, if I have to catch them on the fly. I have more sense than my looks would indicate—have always had enough to keep myself out of the fire—and if ever I am in Lancaster again at night I am going to crawl in a hole, as soon as the shades of evening draw nigh, and stay there till broad day light. A good many Lancaster boys sleep only on Sundays.

If every man in Garrard was not in town Monday, then the male population of the county must be immense. About nine out of every hundred were here on business.

Louis Landrau is the hardest working man in Lancaster, and one of the best fellows in the world, said Joe Robinson to me the other day, and I know he told the truth. He works day in and day out, and fully deserves the success he has achieved in placing The Record at the front of the newspaper procession in Kentucky, printing more local news and original editorials than papers generally contain.

"I enjoy the original expressions in the Record," said Mr. A. R. Denny, to me. When not busy writing he is hard at it in the mechanical department and can print almost "in three shakes of a sheep's tail" anything that goes on paper. He can run an engine like an old-timer in that business, and in fact, goes all the working gaits. The people know they have a good thing in the person of Bro. Landrau, and are pushing him along up the ladder of prosperity. "I want you to go home with me one evening for supper, and take your cornet. I will play on the baritone and my wife will accompany us on the piano, and we will run every rat out of that portion of town," he said to me Friday. Well, I have never yet refused an invitation, and very gladly embraced the opportunity of ascertaining that Mrs. Landrau is a hostess as splendid as she is attractive in person and manners, and as are her sisters also. "Mrs. Landrau is everybody's friend," Ed Gaines said to me, "and consequently exceedingly popular." When she played on the piano the rats Louis had mentioned were spell-bound in admiration, but when we turned loose on a brass band duet the rats lit out.

While I was "sitting around on barrels and chairs discussing my own and my neighbors affairs" in Bro. Humphry Ballou's store Monday a lady came in to make a purchase whom I thought was the Miss Kate Wherritt I knew some 15 or 18 years ago, and had not seen since. I very seldom wait for the formality of an introduction, as I don't expect to live in this world but once and intend to get acquainted with everybody before "going up higher to walk the streets of Gold," so I quickly ascertained it was "Miss Kate," now Mrs. W. A. Berkele, and that time has increased her looks and weight. "I only weigh 190 and the best looking man you have seen in Lancaster is my husband," she said in answer to two questions I propounded. Mrs. Berkele used to visit Stanford when quite a young lady and her sunny disposition made her a welcome guest.

Bro. Letcher Owsley and W. Lud Evans told me yesterday that I am a little inclined to be liberal in throwing bouquets. I believe that kind words and tender sympathy is needed worse in this old world of ours than anything else by a considerable majority, as they are so easily given and so often withheld and I believe that bouquets for the living are productive of more good than flowers upon the graves and in the obituaries of the dead.

The Lancaster Masonic lodge goat is an unusually fine animal, is I saw him Monday night, and he performs as beautifully as trained dogs in a circus.

Lancaster lodge has some of the brightest Masons in the state.

"I would like for you to visit The Shoot," said Bro. Thomas Waller Reid to me, "and then give us a pen picture of it". As politely as I knew how I asked him to excuse me, as I have long been "struck on myself" and don't propose to place in jeopardy a life as important as I deem mine to be. Crossing the Public Square at midnight is dangerous enough for me, while Lancaster is without a night policeman. "The Shoot" is that portion of the suburbs where bullets whiz through windows at the rate of a mile a minute and any informant says they are sometimes picked up by the shovel full. From 9 p. m. to 4 a. m., pandemonium reigns and I reckon a few of the 17 government licenses are owned by residents of that portion of the city and tigers without any eyes roam at their own sweet will. To get me to pass through "The Shoot" Dewey and Hobson would have to accompany me and Hobson would have to be guarded, I presume, to prevent him from kissing the female residents of that suburb.

The miraculous feat of Shelton Parton, son of Rev. Ira Parton, is being revived since his recent removal to Lancaster. Shelton is now 18 and at the age of 14 had the thrilling experience of falling down a cliff a hundred feet high on Cumberland river. From the time he was big enough to start to Sunday School he had not missed going a single Sabbath till one morning in the summer of 1885, when all alone he was en route thither with his Sunday-school papers in his hand. He came across some 6 or 8 naughty boys, who after great coaxing persuaded him to accompany them on a hunting excursion. They were journeying along the banks of the Cumberland, inhaling the sweet perfumes of the mountain flowers, while the songs of music-throated birds entranced the listening air, and with thoughts of the grief his action would cause his parents to undergo, Shelton was not sufficiently cautious, but stepped too close to the precipice, his foothold gave away, and with a shriek he began his fearful descent from one ledge of rock and tree top to another, grabbing at everything in sight, and finally landing 100 feet below in the raging stream, but little the worse for wear, and being a Baptist, hence not afraid of water, he pulled for the shore and is the hero of this paragraph of truth which is stranger than fiction. Here resumed his attendance at Sunday School and I don't reckon a company of the State militia could ever induce him to go hunting squirrel hunting on Sunday. I am told he is a bright boy and an quite sure no individual in the world's history ever had a more thrilling experience and lived to tell the tale. All boys should learn a lesson from Shelton's experience and shun every appearance of evil.

Dr. J. B. Kinnaird says the Garrard county roads center at the mouth of Sugar Creek. What I don't know will fill volumes, but I was not aware till he told me this morning that a town was once laid off there, and he says that is destined to become an important spot in the Universe. In fact, it is a great shipping point now, the steamboat, Falls City, coming there once a week and oftener. Squire Kinnaird says that 40 years ago a tobacco buyer from Europe, Bill Walls, came there to make purchase of the weed and jokingly said to a gentleman who was there from Casey county that he wanted to buy cats to ship to England. "Buying cats? What are you paying for them?" was asked. "Ten cents apiece," said Mr. Walls. That ended the conversation and two weeks later a wagon loaded with 1,100 cats in

Ninety Miles an Hour!

In the recent record breaking run made by the fast mail trains over the lines of the Chicago, Burlington and Quincy and the Chicago and North-western Railroads, Cleveland Moffett, as special representative and correspondent of McCLURE'S MAGAZINE, made the trip from "start to finish." Full details of the round trip, from Chicago to Omaha, which is the most recent at the same time in many respects and for many reasons the most interesting and exciting "race against time" ever made in this country, are vividly described as they actually presented themselves to the writer, who rode in the cab by the side of the Engineer, whose hand on the throttle controlled the engine on this most remarkable, "record breaking" run. This article, which will appear in McCLURE'S Magazine for April, will be replete with illustrations and pen pictures.

Foley's Honey and Tar Cough Medicine.

This remedy is intended especially for coughs, colds, croup, whooping coughs and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. It is especially prized by mothers for their children, as it never fails to effect a speedy cure, and because they have found that there is not too least danger in giving it, even to babies, as it contains nothing injurious. J. B. JENNINGS.

A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE APPEARED AT FIRST AS MERE PIMPLES. The greatest care should be given to any little sore, pimple or scratch which shows no disposition to heal under ordinary treatment. No one can tell how soon these will develop into Cancer of the worst type. So many people die from Cancer simply because they do not know just what the disease is; they naturally turn themselves over to the doctors, and are forced to submit to a cruel and dangerous operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.

Mr. Wm. Wahple, of Washburn, S. D., says: "A little blotch about the size of a pea came under my left eye gradually growing larger, from which shooting pains at intervals ran in all directions. I became greatly alarmed and consulted a good doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S. S., and decided to try it. It acted like a charm, the Cancer becoming at first irritated, and then discharging very freely. This gradually grew less and then disappeared altogether, leaving a small scar which soon dropped off and now only a healthy little scar remains where what threatened to destroy my life once held full sway. Positively the only cure for Cancer is Swift's Specific."

S. S. S. FOR THE BLOOD

—because it is the only remedy which can go deep enough to reach the root of the disease and force it out of the system permanently. A surgical operation does not reach the blood—the real seat of the disease—because the blood can not be cut away. Indistinct upon S. S. S.; nothing can take its place. S. S. S. cures also any case of Scrofula, Eczema, Rheumatism, Contagious Eruptions, Urticaria, or any other form of blood disease. Valuable looks on Cancer and Blood Diseases will be mailed free to any address by S. S. S. Specific Company, Atlanta, Georgia.

LAND STOCK CROP

Auctioneer A. M. Burne, reports about 500 cattle on the market Monday, nearly all sold at fair prices. Pig horses brought from \$16 to \$50. Cows and calves from \$25 to \$40; sows and pigs \$14; bunch of nine shoats at \$21.80 bunch of 23 head of long yearlings at \$17.

According to the tax rolls in the controller's office at Austin the number of cattle rendered in Texas for the assessment of 1898 was 5,415,757 head, against 5,057,656 head in 1897, an increase of 358,101. Ten years ago, however, the rolls showed 7,549,106 head, nearly 40 per cent. more than the number reported in 1898.

J. Sheer, Sedalia, Mo., conductor on electric street car line, writes that his little daughter was very low with croup, and her life saved after all physicians had failed, only by using One Minute Cough Cure. Stormes' Drug Store.

A little line scattered about or placed in a box in a dairy room will absorb much of the surplus moisture, but the first important step is to see to the drainage and have it as perfect as possible. Damp floors not only develop, but increase organic fungoid germs.

The rain fall for the month up to the 20th, has been nearly seven inches. Not one ounce of fallow land has yet been turned in Central Kentucky—or if turned, it was to the injury of the soil and detriment of the intended crop. Much hemp is yet unbroken, few plant beds are prepared and all seasonal work is delayed. Farmers are growing restive, but such conditions are quite usual in March.—Lexington Herald.

To allay pains, subdue inflammation, heal foul sores and ulcers, the most satisfactory results are obtained by using BALLARD'S SNOW LINIMENT. Price, 25 cts. and 50 cts. C. C. & J. E. Stormes, & Fish & Co., Paint Lick.

The Commissioner's office is flooded with requests to which it is impossible to reply individually. The report of the purchase of \$10,000 worth of seed was an erroneous one. The amount really expended for this purpose was \$728.75.

The Danville Advocate says John A. Hugueny does not believe in wearing colts, and here one can see what he probably never saw before or will ever see on any other man's place—this is '99, '98, '97 and '96 foals sucking the same mare, some both mule and horse colts, some runners and some trotters. In some instances the '96 or '97 foal is the sire of the '99 foal.

Geo. B. Secord, the well known contractor of Towanda, N. Y., says: "I have used Chamberlain's Cough Remedy in my family for a long time and have found it superior to any other." For sale by R. E. McRoberts, druggist.

The great Hanover was chloroformed and killed at Lexington last week by Dr. Robert Bryan, who was left alone with the great stallion. Col. Young could not witness the death of the idol of his heart and left the farm early in the morning for Lexington. The employees around the barn also left. Hanover had been sick for some time suffering with indigestion. He recovered from that, but he had an uncontrollable appetite and was muzzled to prevent him from eating between meals and in that condition he was very restless and in pawing, struck one of his feet, injuring it badly. Every means was resorted to in order to cure it up. Blood poison set in and he had to be killed. Col. Young had the horse buried and will erect a nice monument to his memory.

If you are interested in horses, you should subscribe for the American Stock Farm, Lexington, Ky. The price is \$2.00 per year, but you can secure it from now until January 1, 1900 for \$1.00, if you will mention this paper when writing. mar30tf
